

5/27/2004

Dear Sirs:

Big Business cannot deny the right of tax paying satellite radio customers to benefit from all XM has to offer. This is clearly a first amendment issue, and granting the NAB the power to control what we can or cannot listen to is an injustice and un-American! Their petition is sensorship. I urge the FCC to reject NAB's petition 04-160.

Sincerly yours,

Jeffrey Boettner
